

Saturday Morning Physics

Free for High School Students

The SMP program's purpose is to further the understanding and appreciation of modern physics among high school students. SMP is a free series of 11 lectures and tours given by Fermilab community. The lectures are aimed at high school students who have no previous scientific knowledge.

Fall session

- Lectures are every Saturday starting Sept 13th through Nov 22nd.
- Lectures start promptly at 9am.
- Lectures are held in person and on-line.
